CERTIFICATION	cUPC (IAPMO B45) · ISO 9001 manufacturing
WARRANTY	10-year limited warranty, body and glaze

FEATURES

- No overflow, full prep depth
- Reinforced base for in-frame installation
- Compatible with three-hole bridge taps
- Templates included for cabinet makers

CARE & MAINTENANCE

The London pattern's flat, open bowl is the easiest fireclay format to keep clean: nothing interrupts a wipe-down. Weekly cream-cleaning maintains the glaze; a bottom grid protects it from the cast-iron habit. Without an overflow, never leave the tap running unattended with the drain plugged, the traditional trade-off for the extra depth.

Fireclay is a kiln-fired ceramic; dimensional variance of ±2% is normal under the B45 standard. Always template from the delivered sink.
