WARRANTY	10-year limited warranty, body and glaze

FEATURES

- Counter-recessed or vessel install
- Concealed overflow
- 1.2mm crisp glaze edge
- Suitable for hospitality projects

CARE & MAINTENANCE

The crisp glaze edge is the Plinth's signature and its one care note: don't chip it with heavy glass bottles, a small tray for cosmetics is the elegant fix. Otherwise it is fireclay: non-porous, UV-stable, indifferent to cosmetics and cleaning chemistry. Housekeeping teams can use standard neutral bathroom cleaners; abrasive powders dull the sharp edge's light-catching line over time.

Fireclay is a kiln-fired ceramic; dimensional variance of ±2% is normal under the B45 standard. Always template from the delivered sink.
