CARE & MAINTENANCE

Daily care is a warm-water rinse and a soft cloth. Once a week, clean with a non-abrasive cream cleaner such as Bar Keepers Friend or any pH-neutral ceramic cleaner, then dry with a tea towel to prevent hard-water marks. Avoid steel wool and neat bleach; the vitreous glaze is acid- and stain-resistant, and it is heat-safe to 530°C, so a hot pan straight from the stove will not mark it.

Fireclay is a kiln-fired ceramic; dimensional variance of ±2% is normal under the B45 standard. Always template from the delivered sink.
