CARE & MAINTENANCE

The routine is unchanged at any size: warm-water rinse daily, a pH-neutral cream cleaner weekly, and a towel-dry in hard-water areas. Because the bowl is large, a stainless bottom grid is a worthwhile accessory; it keeps heavy cookware off the glaze and lets water circulate underneath. Avoid abrasive pads, they won't destroy the glaze, but they will dull its sheen over years.

Fireclay is a kiln-fired ceramic; dimensional variance of ±2% is normal under the B45 standard. Always template from the delivered sink.
