CERTIFICATION	cUPC (IAPMO B45) · ISO 9001 manufacturing
WARRANTY	10-year limited warranty, body and glaze

FEATURES

- Built-in accessory ledge
- Splash-bevel rim
- Available in six finishes
- Templates included for stone fabricators

CARE & MAINTENANCE

Bar sinks collect the acidic end of kitchen life, citrus, wine, coffee grounds, and vitreous fireclay is the right material for exactly that: the glaze is acid-resistant and non-porous, so lime juice left overnight leaves no ghost. Rinse after service, cream-clean weekly, and if you fit the accessory ledge with a timber board, oil the board, the sink needs nothing.

Fireclay is a kiln-fired ceramic; dimensional variance of ±2% is normal under the B45 standard. Always template from the delivered sink.
